

Dear veteran,

Thank you for serving our country. You always keep us safe from danger. I want to tell you that today in class I had watched a video on veterans and I know that you will always keep me and our country safe. I know that you are brave and smart and kind. So thank you so much for keeping our country safe and I hope you always keep us safe from danger. Also in class I watched a video of veterans like you come home and that made me cry cause it's always so emotional when soldiers come home. So I bet when you go home your family is going to be emotional when you go home because you have been away from them to serve our country. So one more time THANK YOU so much for keeping us safe.

Sincerely,
Taranea
